

PISA-FLUMART data upload process.

1. Register email accounts in the PISA-FLUMART system. Please note that if you have wims or yahoo or google email accounts, you can directly ask to register your email accounts in the PISA-FLUMART system. Otherwise all other email accounts should have to register in the ADS (<https://extranet.who.int/ads>) at first and then can ask for registration it into the PISA-FLUMART system.
2. Once the email registration is completed in the PISA-FLUMART system. You can login the system on <https://extranet.who.int/flumart>. You will see the welcome screen as shown below.

Sign In

3. Login with your registered email accounts and you will be able to see the following screen on successful login.
